

COMPANY

Since 1979 Scoprega has been designing, manufacturing and marketing **products and accessories for the nautical and water sports sector** all over the world. **We are among the world leaders in the production of electric, hand and foot inflators, oars and paddles, inflation valves and nautical accessories.**

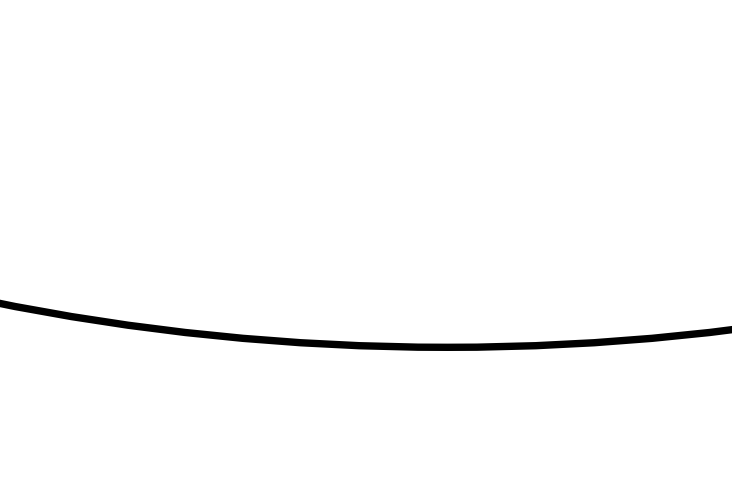

The **Made-in-Italy** signed Scoprega has always been featured by **high technology, refined design, reliable performance** and a lot of passion for what we do.

Our motto, "Look beyond", represents the vision of Scoprega: **aiming at the constant improvement of our products and their production techniques** always complemented by the principles of eco-sustainability and the ever-increasing use of **low-emission recycled material.**

VA NX is smaller than other valves currently available on the market.

The valve body can be replaced regardless of the inflatable to which it is applied, and can be used for both low and high pressure.
